

3 RAY CATANIA: So I'm going to face the
4 audience. Aloha, Brothers and Sisters. So far the
5 people that have been speaking up have been speaking out
6 against militarism and destroying our beautiful Pacific.
7 First of all, I would like to say that the reason why
8 they're having these meetings here is to secure public
9 support for their scam of controlling the Pacific as
10 their own lake. They see China as their big competitor.
11 It came out in the paper today that the head of the Navy
12 was talking about that.

13 As far as I'm concerned, my concern is that a
14 working class person, every penny is being spent on war
15 should now go to the needs of the people; jobs, housing
16 and education like the schools over here. Now, let's
17 get straight. Okay. The people are suffering. Enough
18 money on war and war preparations. In fact, there's a
19 global worldwide movement against war and militarism and
20 corporate greed.

21 The only people that are really benefacting out
22 of this whole thing is the contractors and people that
23 make missiles and bombs like General Electric. We've
24 got to stop killing people that did nothing to us.
25 We've got to give the land back to the Hawaiians, and
1 we've got to start taking care of the needs of the
2 working class. (Applause.)
