

24 BRUCE GEDDES: My comment was somewhat the
25 same because I go halfway to the bank. So it's a
1 13-hour run and 13 hours back. And so the ops, I get a
2 hold of some of my buddies on the base, yeah. And they
3 let me know. But if there was an easier way because
4 sometimes it's hard to get ahold, and then the schedule
5 gets changed, and we get kicked out.

6 We got to go 80 miles south, and then we get
7 ahold of da kine Honolulu Coast Guard then maybe day,
8 day and a half, and so a couple days where we no can
9 fish 'cause, you know, so it's a mile and a half deep.
10 And halfway bank, you know, it's all about the up, you
11 know, the up, the shallows. And so yeah, just give us a
12 better, some way to know your scheduling of your
13 practices.

14 One other comment. Please don't get mad. A
15 lot of you folks, you know, you plenty compassion for
16 the animals, and I understand that. But I don't know if
17 you ever done outreaches Cambodia, Vietnam. I'm a
18 Vietnam vet, and so I did other things after that and
19 have the heart for the people, you know, because 99
20 percent of the world is starving. It's all about where
21 the next job is come from because no can afford their
22 rice. And just remember the people, too. (Applause.)
