

3 MR. LINCOLN: My name is Lancelot Haili
4 Lincoln. I am a direct descendent of Kamehameha I.
5 If you look at the crescent of our royalty, the two
6 twin brothers you see there, this is my family.

7 My question to the Navy is when are they
8 going to clean up Kahoolawe, which they have been
9 bombing for many years?

10 Another question I have, when are they
11 going to clean up that oil spill over there at Pearl
12 Harbor at the war memorial?

13 Please, you make a mess in our islands,
14 you must clean it up. You destroy the islands by
15 bombing our islands, Kahoolawe, please, now you must
16 clean it and make it the way it was when you first
17 started. Pearl Harbor, that ship is still leaking
18 oil. Anywhere in the world a ship dumps oil,
19 everybody comes in to clean it up, environmentalists
20 are all over these people, like BP. Please, clean the
21 oil spill up over there at Pearl Harbor so we can --
22 again one day hopefully my grandchildren can eat the
23 oysters that come from Pearl Harbor, Ewa Beach,
24 Waipahu, like I did when I was a child.

25 Now, my keiki, my children, and my
1 grandchildren, my opio, they are not able to eat these
2 urchins from these areas because of the destruction
3 and oil spill from these ships. Please, you created
4 this disaster, please clean it up for us.

5 That's all I ask, Captain Nicholas.
6 Thank you very much.
