I can't understand how any human being can give any sound and thoughtful reason for killing or harming anything. Aggression and violence in any form comes from ignorance of our own desire for understanding of our needs and meeting them in a way that respects others, honors their place in our world - we share planet earth and need to support and care for every living being on it. When over 1/2 of US budget goes to military budget with endless war as the seeming objective, isn't it time to find a better way to operate in the world than global occupation by the military. US spends over \$487 billion in war a Iraq which UN estimates less than 1/2 could provide clean water, adequate diet, sanitation services and basic education to every person on the planet.
